Direct Health Primary Care for Small Businesses

Better Care • Lower Costs • Healthier Teams

Direct Primary Care (DPC) is a new way to provide healthcare that focuses on unlimited, personalized access to your doctor for a simple monthly fee. For small businesses, pairing DPC with a high-deductible insurance plan creates a powerful, affordable benefits package.

■ Why Businesses Love DPC

Flat, predictable monthly costs for unlimited primary care. No copays, no surprise bills, and same-day access. Happier, healthier employees with better chronic disease management. Significant reduction in ER, urgent care, and specialty costs. Boost retention and recruitment with healthcare benefits.

■ The 2026 Advantage

Starting in 2026, businesses and employees can unlock new savings: DPC memberships are **HSA/FSA eligible** (up to \$150 individual / \$300 family per month). DPC no longer disqualifies HSA contributions. Bronze and Catastrophic ACA plans will be HSA-eligible, expands affordable options

Sample Employer Plan

Component	Description	Estimated Cost (per employee/month)
DIRECT HEALTH PRIMARY CARE MEMBERSHIP	Unlimited visits, 24/7 direct access, no copays, HSA/FSA eligible	\$75
High Deductible Bronze Plan	Covers hospitalizations & major events	\$350
HSA Contribution (optional)	Employer pre-tax contribution to offset costs	\$75
	Total Estimated Monthly Cost	\$425–\$500

How Employers Save

Lower Premiums: Pair DPC with high-deductible/bronze plans

Tax-Free HSA/FSA Use: Employees pay membership fees with pre-tax dollars

Employer savings: Lower premiums, fewer claims, tax advantages for both employee and employer
